UNIVERSITETET I AGDER

Invites, with support by the Faculty of Engineering and Science, to

Seminars in mathematical education "Mondayseminars" - Spring 2008

Changes, in particular extension possible! Responsible for the series: Reinhard Siegmund-Schultze (UiA)

Week	Date	Mondays 14.15 – 16.00, J – building (Niels Henrik Abels hus) , Gimlemoen, Kristiansand, auditorium J2-009 (Exceptions will be announced. See separate abstracts on website UiA)
9	25.02.	Masters students will present their work. Jostein Trondal: "Hvordan kan matematisk modellering formidles i videregående skole med hjelp av moderne teknologi?" (Advisor A.B. Fuglestad) and Magne Revheim: "Interactive Whiteboard og geometri: En undersøkelse av når og hvordan IWB bør brukes for å fremme elevdeltakelse i undervisningen av geometri i matematikkfaget R1 i den videregående skolen." (Advisor S. Goodchild)
10	3.03.	Simon Goodchild: "Methodology of developmental research in mathematics teaching" Note that this week is officially free of teaching!
11	10.03.	Masters students present their work: Leif Johannes Omland: "En undersøkelse av problemene sykepleierstudentene møter i medikamentregning" and Lars Jøran Eilertsen: "En undersøkelse av virkningen for et nytt undervisningsopplegg i grunnkurs matematikk for økonomistudentene." Advisors K. Bjørkestol and S. Goodchild
12	17.03.	Week before Easter!
15	10.4.	Paul Ernest (Emeritus Professor University of Exeter, UK , Professor II University of Oslo, Professor II Høgskolen i Sør Trøndelag) A topic connecting Philosophy and Research in Mathematics Education (abstract and exact title follow soon). Host: Simon Goodchild Note: Seminar is on a Thursday and begins 14:30 at JU-071
